

Modify section 25 00 00 INTEGRATED AUTOMATION per the following. Remainder of section is unchanged.

Delete the linked document “Building Automation Systems (BAS)” dated December 2010 in its entirety, and replace with new link to new document (dated March 2012) below. Revise the link to match new document named. Modify description to read “The PSU BAS Guide Spec is temporarily unavailable. It is being revised to include ALC, Delta Controls and Siemens (Apogee) as Acceptable Manufacturers. The linked document has additional information.”

Building_Automation
_Systems_Mar_2012.

End of Revision

Update Commentary:

Section was updated primarily for the following reasons:

- 1) Remove outdated specification from Standards while it is being revised and updated.
- 2) Indicate new acceptable vendor list.

The PSU BAS Guide Spec is temporarily unavailable. It is being revised to include ALC, Delta Controls and Siemens (Apogee) as Acceptable Manufacturers.

The following will be included in the latest revision when it is released.

ACCEPTABLE MANUFACTURERS

- A. Automated Logic Pittsburgh,
web LINK: <http://www.automatedlogic.com/branch/pittsburgh/company/>
- B. Delta Controls, installed by Conexus
web LINK: <http://www.conexus.biz>
- C. Siemens (Apogee), as installed by Harrisburg branch office.
Contact Douglas Nemtuda, (717) 791-4227
- D. No other Manufacturers are allowed.
